

High performance budget priced portable industrial video borescope

The new VUCAM® - easy to use, mobile and robust, with a quality "Made in Germany"

Combining new imaging technologies with field proven industrial video borescope manufacturing is delivering excellent endoscopic image capabilities at very favourable costs.

UP TO DATE TOUCH SCREEN

640 x 480 px, 5.7" high resolution, LED backlight TFT. Modern graphic user interface operation.

INSPECTION RESULT DOCUMENTATION

A touch on the screen calls the full featured keyboard. The user name, application & findings can be documented outside the inspection image & saved to SD.

SNAPSHOTS DURING THE VIDEO RECORDING

Digital JPEG snapshots during the video recording shorten your documentation & post processing effort.

DIGITAL IMAGE FREEZE FUNCTION

Freeze an image live or during the recording process to analyze, consult or add text before saving the file for your own documentation.

DIRECT DATA RECALL

Is everything complete and in focus? Recall the last saved inspection file with just a tip on the touch screen to ensure your data integrity.

ELIMINATE REVISITS WITH FLASH BACK BUFFER RECORDING

Many areas of interest are passed by while inspecting. By the time a potential problem has been realized, revisits are needed for analysis and documentation. Save time & money with VUCAM® constantly buffer capturing.

SD CARD

Perfect documentation of high resolution MPEG4 video-recording and JPG high quality images.

DIRECT ACCESS BUTTONS

Ergonomically located under the fingertip. The most frequently used functions are activated with a simple click.

- :: Illumination control
- :: Digital snapshot
- :: Video recording
- :: Freeze image
- :: Flashback recording :: Video snapshot
- :: On / Off button
- :: Toggle / operate all other system menu functions

FREE TILT DISPLAY

Adjust the display to desired position to have a perfect view of your inspection results.

COMPLETE CARBON FIBRE / ALUMINIUM CONSTRUCTION

Light weight, robust modern materials. Carbon fibre housing with rubber bumper protection and aluminium construction make the unit fit for the harshest environment.

TIDY, SAFE & OPTIMISED POSITIONING

Standing solidly when placed on a flat surface or floor, fixed to magic arm tripod, or hanging on a local part, the VUCAM® offers safe and fatigue free working positions.

HIGH POWER LED LIGHT SOURCE

The high power LED light source provides constant homogenous illumination.

WARNING! Not for medical use. Never use close to electrical facilities, or in hazardous or explosive environments. US or EUROPEAN patents may apply to all INVIZ® and VUCAM® products.

User interface	Unique graphic user interface by touch screen. Paralell direct acces buttons ergonomically positioned to control most frequent used functions like image capture, video capture, light control and system on/off. Toggling function to operate the system alternatively just from buttons on the handle.				
Mechanical					
Monitor	Rubber bumper protected carbon fiber construc	tion. Screen shock absorbing floating integrated, dust and s	splash proof.		
Hand piece	Coated high resistant aluminium handpiece and control knobs, aluminium integral flat surface stand with tilt adjustable display.				
Memory	SD card 8 GB (optional: max. 32 GB)				
Interface	Multi I/O per cable connection				
Power supply	Battery: 6,4 V Power supply: Input 100 - 240V	AC, ouput: 12V, max. 2,5A			
Battery concept	Two field replaceable high power LiFePo batteries. Quick charge technology, charging while the sytsem is operated from mains. The optional external charging unit for recharging spare batteries while working. Charging time below 2 hours. Battery life time depending on operation. LiFePo batteries combine the advantages of Lithium cells (no memory effect, high capacity, low weight). System air transportable (for further information please refer to the IATA Lithium Battery Guidance Document).				
Image capturing	Auto stop; autosplit; freeze frame, single image	capture, digital video recording			
Mounting	1/4" mounting for operation with standard tripods	s and magic arms.			
Functions					
Text annotation	Text is entered seamlessly with a full size touch keyboard while displayed and captured outside of the inspection image, thus not covering any application detail. Text, date and time can be captured with image and video recording, printer friendly text formats are available.				
Menu	Touch screen menu, handpiece controls, multiple language options, real time image brightness, contrast, saturisation, color control; date, time, logo, system status.				
Functions	Image capture, video capture, text entering, easy image and video selection, easy delete, language selection, illumination, immediate activation of the last saved file, fast access data recall, manual white balance, date & time display.				
Cassifications	saved file, fast access data recatt, mandat white	batance, date & time disptay.
