

LONGER SERVICE LIFE THAN STEEL

EXCEPTIONALLY SHARP

VERSATILE USABLE

SAFE BECAUSE
OF THE HANDLE

MARTOR CERAMIC BLADES.

TEST NOW!

DURABLE AND SHARP

The new MARTOR ceramic blade impresses with its long service life and long-lasting sharpness. This makes it easier for you to cut a wide variety of materials. Blade changes are rarely necessary.

VERSATILE USABLE

In addition to its sharpness, the ceramic blade has special chemical and physical properties. This means your MARTOR safety knife is well equipped, even in special situations.

FLEXIBLE AND SAFE

You can use the ceramic blade flexibly in existing MARTOR handles – as an alternative to the mounted steel blade. The reliable safety technology of your safety knife protects you when cutting. You will also benefit from its comfort and ergonomics.

CERAMIC BLADE NO. 92C

TECHNICAL FEATURES

4-cutting edge blade: for a fourfold period of use

2-sided ground-edge: less cutting resistance

Non-rusting: ideal also in a damp cutting environment

Non-conductive: no transmission of electrical potential

Non-magnetic: no adhesion of magnetic particles

Chemically inert: no reaction with other substances

Non-oiled: no contamination of the material to be cut

SUITABLE FOR THESE MARTOR SAFETY KNIVES

APPROVED SAFETY

At MARTOR, using the optional ceramic blades is covered by GS testing. The GS mark certifies that our products meet the requirements of § 21 ProdSG (German Product Safety Act).

WIDE RANGE OF APPLICATIONS - EXAMPLES

FLEXIBLE PACKAGING

+ Suspendable thanks to the practical eyelet

+ Bendable for better storage

Packaging unit (PU)	2 on self-service card
Size PU	84.5 x 5 x 160 mm
Weight PU	17.0 g
EAN Code PU	4002632801754
Customs tariff number	69149000

+ Separable

for a targeted distribution

+ Sustainable

made of 100% recyclable material

PLEASE NOTE

Attention: The blade is sharp. It may break under extreme pressure. Wear safety glasses. Replace damaged blade immediately. Observe the safety instructions for the knife.
